Early Years	Topic:	<div></div> <div>Global Warriors - Superheroes</div>	<div></div> <div>Regent Farm Respects - Day and Night</div>	<div></div> <div>Time Travellers - Dinosaurs - Then and Now</div>	<div></div> <div>My World and Me - Under The Sea</div>	<div></div> <div>Gizmos and Gadgets - Robots, Rockets and Recipes</div>	<div></div> <div>Healthy - Inside and Out</div>
	Intent	<p>Global Warriors enables our children to familiarise themselves with their new surroundings and their immediate environment. We build on prior knowledge of the local area and wider community. The children are encouraged to build new relationships by celebrating what makes us all individual and unique. We introduce this through the concept of superheroes and superpowers. We look at real life superheroes all around us, such as doctors, fire fighters and police officers and develop our school values through problem solving and investigations.</p>	<p>In this topic children are invited to use their senses to investigate light and dark, night and day. We use imaginative play to transport ourselves to the fictional worlds that are created through our key texts. We get a unique chance to stargaze and experience the magic of the night sky when the mobile planetarium visits school. Our Nativity adds music and performance to the curriculum and the addition of a mischievous gnome helps us focus on the real meaning of Christmas.</p>	<p>Time Travellers encourages an exciting start to the new Spring Term where the children are emersed in awe and wonder about their world. We visit the Great North Museum and explore the ancient and new by studying dinosaurs and their modern relatives – crocodiles and alligators. We encourage the children to study non-fiction texts and share their knowledge by creating their own museum as the topic grows. We partner up with Gatorland Florida to become real life keepers and an escaped fictional alligator (Alan) causes chaos when he appears at school. How will we ever get him home to the marshlands of Florida?</p>	<p>In the second half of the Spring term, we continue to explore the natural world by looking under the sea. We visit the beach and the rockpool school and write fiction and non-fictional texts based on our book if the week. As the topic moves on, we begin to focus on conservation. The children develop a sense of themselves as global citizens who can contribute to the world around them. We delve into the fantasy world of mermaids and focus on cultural and gender stereotypes by asking questions like “Can boys be mermaids?”</p>	<p>Gizmos and Gadgets is a topic based on building skills of problem solving. The children are encouraged to use scientific and mathematical ways of thinking in order to investigate and explore. We begin the topic by becoming engineers. The children are encouraged to be curious learners by questioning and editing ideas and plans. They use determination to work through more challenging and open-ended activities. We explore robots, rockets and vehicles before moving on to kitchen gadgets and how they can help us become more efficient in our own homes – we practise with lots of recipes and tasty treats.</p>	<p>Healthy Inside and Out takes us on an exploration of growth and change over time. We look at different aspects of healthy lifestyle from exercise to mental health, online safety and a visit to the farm which helps us explore where our food comes from and how it gets to our plate. We take this opportunity to consolidate learning through a range of new and familiar experiences. We continue to challenge the children and develop their skills so that they feel confident and supported during their transition to Year One.</p>
