

KIRF: I know number bonds to 10

What can this look like?

Concrete

Pictorial

Abstract

$0 + 10 = 10$	$6 + 4 = 10$
$1 + 9 = 10$	$7 + 3 = 10$
$2 + 8 = 10$	$8 + 2 = 10$
$3 + 7 = 10$	$9 + 1 = 10$
$4 + 6 = 10$	$10 + 0 = 10$
	$5 + 5 = 10$

Key Vocabulary

+	=	-
plus altogether	equals	subtract
add total	is equal to	minus
make	the same as	take away

**It is important children are exposed to all vocabulary*

Key Questions to ask at home

- What do we need to add to 7 to make 10?
- If I have 4, how many more do I need to get to 10?
- If Tom has 10 cakes and gives 5 to Jess, how many does he have left?
- What is the difference between 10 and 1?

Activities to Try

Top Tips: The secret to success? Practise a little and often! A few facts on the way to school or on a journey. Why not practice them whilst throwing and catching or kicking a ball.

- Put 10 pegs on a coat hanger, split them in different ways. How many on each side? $4 \text{ pegs} + 6 \text{ pegs} = 10 \text{ pegs}$.
- Write the numbers 1 - 10 on large sheets of paper, say a number, can the children shoot the bond to 10 with a water gun or jump on the correct number?
- Use a 10 egg box, choosing two different coloured objects, how many different ways can they make 10?
