OUR TOPICS

Global Warriors

How can we make the world a better place for all?

- Identity** - How do our beliefs help to shape our identity?
- Teamwork** - How can we work as a team to help our world?
- Consequence** - What are the consequence of our actions?
- Change** - How has our local area changed over time?

Global Warriors challenges children to think about our environment and gain a greater understanding of the world we live in and the challenges we face. The children explore the enquiry question 'How can we make the world a better place for all?' Together we will explore how we can repurpose our lifestyles, using our natural curiosity and determination to build a new respect for the environment we live in. Our learning will be focused around the 4 R's: recycle, repurpose, reuse and repair.

Regent Farm Respects

Do I understand you?

- Care** - How do we care for others?
- Happiness** - What is the true meaning of happiness?
- Empire** - Who was King James I?
- Conflict** - Can conflict be resolved peacefully?

Our place amongst diverse and ever-changing communities is explored as our pupils experience a range of factors that make us unique. Taking the lead from our History topic, 'why do we celebrate bonfire night?' we will explore the origins behind this festival and others that are celebrated at this time of year, including Christmas. Fire and Light are the common threads of our books of the week, which explore and celebrate that we are all unique. We learn to embrace differences together and celebrate the individuality of each child.

The Easter Story

OUR TOPICS

Time Travellers

Can we touch the moon?

Creativity
Do you think the creation of the rocket is a good thing?

Influence
Have you been influenced to strive for the impossible?

Collaboration
How has collaboration changed the world?

Logic
How can we successfully join materials together?

This topic starts with the enquiry question 'Can we touch the moon?'. The children learn about Neil Armstrong, Sputnik and Laika the dog, providing a stimulus for creativity and enquiry. We will work creatively to design and build our own rockets and think logically about what animals need to survive on a visit to space! The children will develop their knowledge of the 'space race' to understand historical events and place them on a timeline.

My World and Me

Why are things different?

Community
What communities do you belong to?

Pride
What makes you feel proud of your community?

Comparison
Is the whole world the same?

Resilience
How do I overcome a failure?

Our enquiry question "Why are things different?" will help us to explore how things change over time and how life differs in different places. We will use our links with Mercy School in Kenya to compare our lives and the place we live with those of children in Africa. We will learn geographical skills of place knowledge and mapping to help us discover about the world around us and the world in far off places. We will also use African animals to help investigate scientific methods of classification.

Staying Healthy

Stories and Messages

Christian Worship

Gizmos and Gadgets

How did steam power change the world?

Failure

Can failure be a positive experience?

Creativity

What does it mean to think outside the box?

Achievement

How do we celebrate people's achievements?

Innovation

Why does innovation matter?

This half term we will be focusing on inventors and how their work has changed modern life. The children will be learn about the local inventor, George Stephenson, and how his invention changed transport in Newcastle and beyond. In art we will look at the printing work of William Morris and be inspired by nature to create our own template for printing. We will work collaboratively to create large scale art. Over the half term the children will think about the importance of failing at times, and what positive things can come out of this.

OUR TOPICS

Healthy - Inside and Out

Why is it important to be healthy?

Balance

What does it mean to have a balanced lifestyle?

Wellbeing

What can you do to support your wellbeing?

Duty

What does 'Duty of Care mean'?

Responsibility?

Who is responsible for our happiness?

Asking the question "Why is it important to be healthy?" will help the children take steps in understanding how to maintain a healthy, happy and successful lifestyle. We will look at the different parts that make us human and the factors that affect our health and well-being. We will focus both on mental and physical health and learn what we can do to live a healthy lifestyle. The children will also consider that, as they are getting older, they also have a responsibility for their own happiness.
